

höfats

PRODUCT CATALOGUE 2023

FIRE. FORM. FUNCTION.

Only those who burn for a cause can kindle the fire in others and achieve great things. At höfats, that's exactly what it's all about - FIRE.

Without an appealing form, function receives no stage. It's not just about a beautiful form, it's about the right form. The right form corresponds with the function, derives from it, can be explained functionally, is purist and yet unique. The best form is not replaceable.

We strive for fascinating functionality. The höfats products are amazingly intuitive, surprise with multifunctionality and inspire with the clever use of physical effects. These functionalities are often unique and, to keep it that way, patented.

höfats brings fire into your life. Indoors and outdoors.

We are a young Allgäu design company that develops and sells fascinating products around the topic of open fire. Fire, form, function - this triad is our unmistakable DNA, which has appealed to fire enthusiasts, design lovers, outdoor fans and romantics alike since 2015.

We are driven to create the perfect ambience for your unforgettable fire stories, because is there anything better than being gathered around a crackling fire with your best friends? To this end, we invent, optimise and produce beautiful, innovative and unique products. Our range includes tabletop fireplaces, fire baskets, fire bowls, barbecues, lanterns, torches and is constantly being expanded - always with the aim of making time by the fire the best time of your life.

All our products combine purist design, inspiring functionality and materials of the highest quality. They have won over 50 international design awards in recent years, including the most prestigious in the industry.

SPIN TABLETOP FIREPLACE - a wild swirl of flames in a decorative glass cylinder conjures up the finest campfire atmosphere in the living room, on the balcony or the terrace. An eye-catcher that burns completely clean thanks to organic höfats bioethanol and radiates long-lasting warmth in all directions. Simply insert the gel fuel container into the body and ignite. The glass cylinder made of high-quality borosilicate glass is then placed on top and the glowing fire whirl can be enjoyed for approx. 60 (SPIN 90) to 80 (SPIN 120) minutes. If you want to end the spectacle earlier, place the enclosed extinguisher lid on the glass cylinder, which extinguishes the flame in a few seconds.

- tabletop fireplace with optional extension to a lantern, garden torch or hanging fire
- multi award-winning design
- 500 % flame boost: rotating flame & chimney effect
- radiates pleasant heat (SPIN 90: 1200 W, SPIN 120: 2500 W)
- also safe for use indoors, DIN EN 16647 compliant
- odourless and smoke-free thanks to organic höfats bioethanol
- burn time with one filling approx. 60 (SPIN 90) to 80 minutes (SPIN 120)
- scope of supply: base, wing body, gel fuel cup, glass cylinder, extinguishing lid
- optional accessories: stand elevation, ground spike, hanging system, additional gel fuel cup, bioethanol

SPIN HANGING FIRE - As a hanging version, the fire takes off and seems to float effortlessly in space. As a hanging fire, SPIN can be suspended from a stable and at the same time elegant stainless steel wire by means of a hook. Flexibly adjustable in height, SPIN becomes an impressive eye-catcher, whether indoors or outdoors.

- use as a hanging fire & lantern for indoors & outdoors
- suspension by stainless steel wire, height adjustable
- easy screw mounting without tools
- stainless steel, brushed

SPIN 120 Hanging Fire silver
glass cylinder: Ø 12 cm, hanging fire: 16 × 12 × 79 cm, 2.5 kg,
wire length: 60-120 cm
gross 80 × 25 × 18 cm, 3.2 kg
Item no. 00297, EAN 4064251002974

SPIN 90 Hanging Fire silver
glass cylinder: Ø 9 cm, hanging fire: 13 × 9 × 60 cm, 1.2 kg,
wire length: 60-120 cm
gross 62 × 19 × 13.5 cm, 2.1 kg
Item no. 00301, EAN 4064251003018

SPIN TORCH - As a torch, SPIN can be easily fixed in the ground. Simply stuck into the lawn, flower bed or flower pot, it will enchant guests at the next garden party and become the eye-catcher of the evening. Thanks to the three different length components of the ground spike (17 cm + 34 cm + 48 cm), the SPIN can be raised to the desired height and securely anchored in the ground via the additional ground spike.

- use as a garden torch & lantern for outdoors
- variable height thanks to four-part ground spike
- easy screw mounting without tools
- is inserted into the ground via the ground spike
- only for outdoor use
- stainless steel, brushed

SPIN 120 Torch silver
glass cylinder: Ø 12 cm, 174 cm height mounted, 1.9 kg
gross 21 × 20 × 69 cm, 2.9 kg
Art-No. 00017, EAN 4064251000178

SPIN 90 Torch silver
glass cylinder: Ø 9 cm, 138 cm height mounted, 1.15 kg
gross 20 × 16.5 × 50.5 cm, 2.2 kg
Art-No. 00036, EAN 4064251000369

ACCESSORIES FOR SPIN

SPIN HANGING SYSTEM - With the hanging system, SPIN becomes a hanging fire that can be suspended from the stable yet elegant stainless steel wire, attached to a hook and flexibly adjusted in height. SPIN seems to float effortlessly in space and becomes an impressive eye-catcher, whether indoors or outdoors.

- enables use as a hanging fire
- indoor and outdoor use
- suspension by stainless steel wire, height adjustable
- easy screw mounting without tools
- stainless steel, brushed

SPIN 120 Hanging System silver
16 x 8.5 x 79 cm, 1.2 kg, wire length: 60-120 cm
gross 62 x 19 x 13.5 cm, 2.1 kg
Item no. 00308, EAN 4064251003087

SPIN 90 Hanging System silver
13 x 6 x 60 cm, 0.4 kg, wire length: 60-120 cm
gross 62 x 12.5 x 8 cm, 0.6 kg
Item no. 00312, EAN 4064251003124

SPIN GROUND SPIKE - With the ground spike as an accessory, SPIN can be transformed into a garden torch in no time at all. Simply stuck into the lawn, flower bed or flower pot, it will enchant guests at the next garden party and become the eye-catcher of the evening. Thanks to the three different length components of the ground spike (17 cm + 34 cm + 48 cm), the SPIN can be raised to the desired height and securely anchored in the ground via the additional ground spike.

- enables use as a garden torch
- variable height thanks to four-part ground spike
- easy screw mounting without tools
- is inserted into the ground via the ground spike
- only for outdoor use
- stainless steel and oak

SPIN Ground Spike silver
Ø 1.5 cm, 124 cm length, 0.39 kg | gross 49 x 5.5 x 2 cm, 0.5 kg
Item no. 00002, EAN 4064251000024

SPIN Ground Spike oak
Ø 2 cm, 124 cm length, 0.45 kg | gross 50 x 5 x 4.5 cm, 0.51 kg
Item no. 00003, EAN 4064251000031

SPIN STAND ELEVATION - Thanks to the stand elevation, SPIN works even better on the ground. Mounted easily and without tools between base and wing body, the SPIN flame lifts by 9 cm (SPIN 90) or 11 cm (SPIN 120).

- for using the tabletop fireplace on the floor
- elevates SPIN by 9 (SPIN 90) or 11 cm (SPIN 120)
- only for outdoor use
- maximum stability is maintained
- easy screw mounting without tools
- stainless steel

SPIN 120 Stand Elevation
Ø 9 cm, 11.5 cm height, 0.27 kg | gross 9.5 x 9.5 x 12.5 cm, 0.3 kg
SPIN 120 Stand Elevation silver Item no. 00013, EAN 4064251000130
SPIN 120 Stand Elevation grey Item no. 090201, EAN 4260447330917

SPIN 90 Stand Elevation
Ø 6.5 cm, 9 cm height, 0.16 kg | gross 7 x 7 x 9.5 cm, 0.19 kg
SPIN 90 Stand Elevation silver Item no. 00040, EAN 4064251000406
SPIN 90 Stand Elevation grey Item no. 00222, EAN 4064251002226
SPIN 90 Stand Elevation gold Item no. 00039, EAN 4064251000390
SPIN 90 Stand Elevation black Item no. 00038, EAN 4064251000383

SPIN BASE - If the SPIN torch or the SPIN hanging fire is to stand freely, the solid SPIN base can be mounted and the SPIN can thus be placed on any table. Likewise, the torch can be placed on solid ground outdoors by mounting the SPIN 120 base.

- enables the use of the garden torch or hanging fire as a tabletop fireplace
- enables positioning of the garden torch on solid ground (only with SPIN 120 foot, Ø 23 cm, outdoor only)
- stainless steel

SPIN 120 Base
Ø 23 cm, 1.5 cm height, 2.78 kg | gross 23.5 x 23.5 x 2 cm, 2.85 kg
SPIN 120 Base silver Item No. 00007, EAN 4064251000079

SPIN COVER - To store SPIN safely, there is the precisely fitting cover for SPIN 90 and SPIN 120. The drawstring ensures a secure fastening and the water-repellent material protects against dirt and moisture.

- perfectly fitting protective cover
- with drawstring for secure fastening
- hard-wearing polyester-nylon blend fabric
- water-repellent

SPIN 120 Cover
gross 23.5 x 27.5 cm
Art. no. 00375, EAN 4064251003759

SPIN 90 Cover
gross 21 x 23 cm
Art. no. 00377, EAN 4064251003773

SPIN GEL FUEL CUP - The economical gel fuel cup ensures that the fire never goes out. As soon as it has cooled down, it can be filled again with the höfats gel fuel and the flame experience can continue.

- sustainable and economical gel fuel cup
- capacity: 225 ml (SPIN 90), 500 ml (SPIN 120)
- for use with höfats bioethanol
- integrated level indicator
- stainless steel

SPIN 120 Gel Fuel Cup
Ø 8.5 cm, 9.5 cm height, 0.13 kg | gross 9 x 9 x 10 cm, 0.16 kg
Item no. 00023, EAN 4064251000239

SPIN 90 Gel Fuel Cup
Ø 6 cm, 8 cm height, 0.07 kg | gross 7 x 7 x 8 cm, 0.1 kg
Item no. 00045, EAN 4064251000451

BIOETHANOL - Odourless, smokeless and organic: The original höfats SPIN bioethanol gel fuel made from thickened alcohol is produced from renewable raw materials and enables the perfect SPIN flame experience.

- safe, natural, sustainable, odourless and smokeless fuel
- for filling the SPIN gel fuel cup
- 1l bioethanol gel fuel per bottle
- burn time with one filling approx. 60 (SPIN 90) to 80 minutes (SPIN 120)
- safety gel fuel according to Regulation (EC) No 1907/2006 (REACH)

BIOETHANOL FUEL GEL BOTTLE 6 PACK Ø 7.5 cm, 26 cm height, 1 kg | gross 25.2 x 16.9 x 27 cm, 1 kg Item-No. 090801-6, EAN 4260447331167

- ✓ Up to 50% more grilling surface
- ✓ Even more space around the fire

The bolt circle on the outer diameter allows sufficient ventilation in the outer area

The stainless steel dome in the centre ensures sufficient fresh air in the centre of the fire bowl

BOWL

BOWL - Fire in its most perfect form with inspiring multifunctionality: Whether casual lounge or relaxed standing party - BOWL can be used in two completely different heights and thus adapts flexibly to the relevant use. The enamelled steel hemisphere seems to literally float in its formal clarity. In both positions, BOWL can be placed straight or tilted in one direction, shielding the flames from the wind and effectively reflecting the resulting heat forward. In the neutral position, BOWL becomes the ideal cooking and grilling place thanks to the grid and plancha. The removable ash tray inside the hemisphere protects the base from too much heat, allows for an adequate oxygen supply to the fire and makes cleaning easy and convenient. Both foot variants, made of high-quality stainless steel, always stand stable on three legs.

BOWL PLANCHA BBQ SET LOW AND HIGH - the BOWL BBQ set ensures casual barbecue evenings on the terrace or in the garden with two included planchas. Various delicacies can be prepared on the plancha ring and the barbecue can then be transformed into a fire bowl with a lounge atmosphere in just two easy steps.

BOWL FIRE LOUNGE SET FLEX - with both legs, the BOWL becomes a flexible multi-talent that switches between standing party and lounge atmosphere with playful ease.

BOWL 57 | 70

BOWL 57 | 70 - With the BOWL 57 | 70, the fire experience reaches a new dimension. Thanks to the optimised hemisphere and ash tray with perfected air supply, the fire burns even cleaner and more pleasantly.

Its simple elegance and fascinating multifunctionality continue to ensure unforgettable barbecue evenings and standing parties by the open fire. Now available in two sizes, the BOWL 57 and BOWL 70 together with the revised range of accessories are a real highlight for BOWL professionals as well as BOWL novices!

BOWL 57 | 70 PLANCHA BBQ SET LOW AND HIGH - With the BOWL 57 | 70 Plancha BBQ Set, nothing stands in the way of unforgettable barbecue evenings and lounge parties by the open fire. The black steel hemisphere sits securely on the tripod and provides warmth for numerous friends in its horizontal orientation. The two included planchas transform the fire bowl into an extra-large plancha grill in no time at all, with plenty of room for meat, fish or veggies.

BOWL 57 | 70 FIRE LOUNGE SET FLEX - The BOWL 57 | 70 fire set is the perfect accessory that flexes to suit the mood. Enthusiastically multifunctional, the fire bowl with its included stable star stand and screw-on tripod ensures maximum flexibility for cosy fire evenings on the terrace or in the garden. In just a few simple steps and without tools, it can be changed from a casual standing party to a lounge atmosphere.

- ☆ fire bowl with expandable grill function
- ☆ tilting hemisphere: optimal wind protection & heat orientation
- ☆ easy cleaning thanks to removable ash pan
- ☆ secure stand on solid star stand or screw-on tripod made of stainless steel
- ☆ quick to assemble & disassemble without tools

BOWL 57 | 70 TRIPOD - In no time at all, the tripod raises the BOWL, BOWL 57 and BOWL 70 to a comfortable waist height and thus an optimal grilling position (grid and plancha additionally available). The screw-on BOWL 57 | 70 tripod impresses with an even more slender look with the usual stability, which offers every BOWL a secure hold in a neutral or even tilted position and lets you enjoy the fire without worrying.

- ☆ secure standing position on solid tripod
- ☆ slender look
- ☆ waterproof screw-on
- ☆ quick to assemble & disassemble without tools
- ☆ attached hemisphere can be positioned neutral or inclined
- ☆ Stainless steel, solid

THE NEW FIRE KITCHEN P. 38

BOWL 57 | 70 GRID - high rust resistance thanks to polished stainless steel and supported by three contact points, the new grid guarantees lifelong fire enjoyment. To take the culinary flight of fancy to the extreme, the grid can easily be combined with a plancha or a second grid half.

- ☆ • one-piece grid made of polished stainless steel
- Ø 6 mm bars
- secure support via three support points
- additional support strut for the BOWL 70
- can be combined with BOWL 57 | 70 Plancha, BOWL 57 | 70 grid or a BOWL grill half (only BOWL & BOWL 57)

BOWL 57 Grid	BOWL 70 Grid
Dimensions: Ø 57 cm, rods Ø 6 mm	Dimensions: Ø 70 cm, rods Ø 6 mm
Packed dimensions: 59.5 x 32 x 4 cm	Packed dimensions: 72 x 37 x 4.5 cm
Weight: 1.43 kg (one half)	Weight: 2.1 kg (one half)
Item No. 00339, EAN 4064251003391	Item No. 00264, EAN 4064251002644

BOWL 57 | 70 PLANCHA - Cooking on a hot surface heated by fire - a millennia-old tradition, worldwide, in the most diverse cultures. In Spain it became the plancha, the Japanese call it teppanyaki. The variety of dishes that can be cooked or grilled on a hot plate is countless. Thanks to the small outer rim, fats and oils also stay exactly where they belong - on the plancha.

- ☆ • half-ring enamelled cast iron, optimum heat retention
- non-stick coating for low-fat frying & cooking
- with small outer rim so that fat or grilled food cannot fall off
- secure support via three contact points
- fire ring is created from two planchas
- can also be combined with BOWL 57 | 70 grid and BOWL grid (only BOWL & BOWL 57)

BOWL 57 Plancha	BOWL 70 Plancha

Item No. 00256, EAN 406425100256	Item No. 00263, EAN 4064251002639

BOWL 57 | 70 SEAR GRATE - The BOWL 57 | 70 Sear Grate is more than a cast iron grate. Together with the support ring and the handle, it offers a range of options for grilling and cooking over open flames that leaves even barbecue professionals in raptures. The cast iron grate extends the grilling surface and is ideal for searing when placed directly in the middle of the plancha ring. Positioned on the support ring, the flame proximity and thus the temperature can be regulated over various levels. The cast iron grate can be inserted and removed in no time with the included handle, which also creates space for a wok pan. Placed into the support ring over four different levels, the pan is positioned directly above the flames and adds a special touch to any dish.

- ☆ • Solid cast iron grate, optimal heat retention
- Can be positioned on the height-adjustable rack or placed directly on the opening of the plancha ring
- Also ideal for using a wok or iron pan on the rack ring: safe standing thanks to the built-in three-point support
- Solid lifting tool made of cast iron for inserting/removing the cast iron grate
- Space-saving storage when dismantled
- Cast iron grate: solid cast iron with high-quality enamel coating
- Rack with ring: support ring made of solid cast iron, the rods made of high-quality stainless steel
- Suitable for the BOWL and BOWL 57/70 plancha ring (consisting of 2 plancha halves)
- Optional extension with Warming Ring

BOWL 57 Sear Grate	BOWL 70 Sear Grate

Item No. 00611, EAN 4064251006118	Item No. 00615, EAN 4064251006156

BOWL 57 | 70 WARMING RING - With the BOWL 57/70 Warming Ring, the barbecue collection gains a boost that catapults your grilling and cooking options exponentially upwards. Simply placed on the support ring of the Sear Grate, the Warming Ring offers 60% more space over the flames to keep ready-to-eat delicacies at an optimal temperature or to gently prepare delicate grilled food such as bread or vegetables. Surrounding the cast iron grate, as a tray around an iron pan or solo as a second grilling level above the plancha ring - the Warming Ring offers countless facets that are waiting to be discovered.

- ☆ • Warming Ring enamelled cast iron, optimum heat retention
- Non-stick coating for low-fat grilling & cooking
- Lowered with small outer rim so that grease or grilled food cannot fall off
- Can be placed on the rack of the BOWL 57/70 Sear Grate without assembly

BOWL 57 | 70 LID - Worries about flying sparks and ash clouds are a thing of the past thanks to the BOWL 57 | 70 lid. The glowing ashes remain safely sealed in the BOWL and even external weather conditions roll off the BOWL thanks to well thought-out details. Without slipping or wobbling, the lid sits stably on each BOWL version and can also be used as a storage surface.

- ☆ • cover after use to avoid flying sparks
- weatherproof
- strong, non-slip and wobble-resistant, can also be used as a storage surface
- domed lid prevents water accumulation
- side drip edge that prevents water from entering the BOWL
- stainless steel, brushed

FIRE GLOVES

FIRE TONGS

CUBE

CUBE

MATERIAL

CUBE BLACK
100% stainless steel,
powder-coated

CUBE CORTEN STEEL
100% Corten steel

CUBE BLACK - Enjoy the warmth of the fire without any worries. Thanks to its sophisticated design, CUBE encloses the fire remains, reduces flying sparks and safely stores the ashes. The outer fire basket is simply turned over while the inside ash tray always remains in balance due to gravity. No ashes are dropped and the fire is choked.

Without worrying about the fire going out, the time by the fire can be enjoyed even more. Choose to grill on the grid or plancha, both easily adjusted in height and heat exposure. If no fire is burning inside the CUBE, it can be used as a stool, a bench or a side table – a multi-purpose piece of outdoor furniture which surprises, enthuses and gives lasting joy due to its high quality materiality.

CUBE CORTEN STEEL - The visual alternative to the black CUBE. The effects of weathering create a unique, individual rust patina on the CUBE surface, making this version captivating with its unique rust look in addition to its usual functionality.

CUBE COVER - Fits like a tailored suit to keep CUBE secure. The water-repellent material protects against dirt, moisture and scratches.

CUBE BOARD - With the solid bamboo board, the CUBE fire basket can be transformed into a pleasant seat, side table or flower stool with a flick of the wrist. The extraordinarily high surface hardness makes bamboo one of the most durable woods. Our additional lacquering makes it even more durable. Use only after CUBE has cooled down completely.

CUBE GRID - Thanks to the solid stainless steel grill grid, CUBE can also be used for grilling. The height of the grid can be adjusted thanks to the fire basket's cut-outs and thus the heat can be regulated.

CUBE PLANCHA - Whether fish, meat or vegetables: with the solid, enamelled cast iron plate, CUBE turns into a plancha grill. The plancha offers a smooth and a ribbed surface and can be adjusted in height thereby adjusting the heat thanks to the fire basket's cut-outs. There is room for two planchas at the same time, at different heights if required.

- ☆ fire basket with optional extension to grill and stool
- ☆ rotatable ash tray: fire basket can be turned over during burning, the fire goes out
- ☆ stainless steel, powder-coated
- ☆ optional accessories: CUBE Grid, CUBE Plancha, CUBE Board, CUBE Cover

MATERIAL

Corten steel

CONDITION AS-DELIVERED

RUST PATINA
develops over time

can be dismantled, compact transport size

TRIPLE - An homage to open fireplaces, interpreted with angular clarity in solid Corten steel. TRIPLE cultivates the archaic heat source through inspired simple functionality. Three identical, faceted segments fit together in a few simple steps to form a solid, large whole.

The fact that they can be dismantled allows for mobility and resource-saving transport. The adaptable grill grid is infinitely height-adjustable and swivels. There is space on the shelf for a pot of tea, mulled wine or grilled food, but it can also be swung inwards to cook a fiery stew.

- ☆ fire bowl with expandable grill function
- easy to dismantle, compact transport size
- optional accessories: infinitely height-adjustable and swivelling grill grid, shelf or height-adjustable hot plate
- up to three accessory bars can be mounted (TRIPLE 120/90)
- elevated standing position possible due to add-on feet (TRIPLE 90 only)
- Corten steel, it develops a lively, unique rust patina

BEER BOX - The evolution of the beverage crate begins with the materials wood and metal and ends for the time being with plastic for economic reasons. But what if there is a life after its existence as a beverage container, if the crate is upcycled into a fire basket after its initial use? BEER BOX, a fire basket made of solid Corten steel in its simplest form, yet amazingly versatile: The large handles cry out for mobility - so off you go outside! The cardboard interior is also a firelighting material.

Thanks to accessories, the box becomes a barbecue or stool and the ability to stack makes sense for raising the fire basket as well as for storage and transport. The fact that the box is also an ideal advertising medium is in the nature of things and the integrated bottle top opener is simply a joy!

- ☆ beverage crate and fire basket with optional extension to barbecue and stool

CRATE - CRATE follows in the footsteps of the legendary BEER BOX. While the beer crate was the source of inspiration for the BEER BOX, CRATE is reminiscent of wine and fruit crates. The usual material of wood is replaced by high-quality Corten steel. The result is a multifunctional product that can be many things: Wood storage, wine, beer or fruit crate, but also fire basket, stool and barbecue.

A spontaneous trip to the lake? CRATE is the perfect companion! In addition to drinks, the robust box can also be used to transport firewood for an atmospheric campfire or a small barbecue - and the grill grid comes along!

- ☆ fire basket with optional extension to grill and stool
- can also be used as a beverage crate, wine crate, beer crate, wood storage, fruit crate, etc.

CONE

CONE

MATERIAL

100% stainless steel, powder-coated

comfortable working height 85 cm

100% stainless steel

With the lid closed or half-closed, even larger grilled food can be cooked slowly and energy-efficiently. Just like in an oven, the heat reaches the food from all sides.

stepless & instant heat regulation

The distance between the charcoal and the food to be grilled is minimal, the air supply is open to the maximum
= maximum possible heat

The distance between the charcoal and the food is average, the air supply is open
= medium heat

The distance between the charcoal and the food to be grilled is maximum, the air supply is closed
= least heat

fire basket function

CONE - is the first charcoal grill with effective heat regulation. It transfers the comfort of a gas barbecue to a charcoal grill and enables intuitive heat regulation by controlling the distance between the heat source and the food to be grilled via the air supply.

If high heat is required, for example for a hot barbecue, the charcoal grate and thus the heat source is raised. To reduce the heat, the grate is lowered and the air supply is automatically reduced. Since the charcoal grate can be raised to the edge of the funnel, CONE can be converted into a fireplace after grilling.

CONE COVER - fits like a tailored suit. The water-repellent material in combination with a high-tech outdoor zip protects CONE like a second skin against dirt and moisture, even when it is put into hibernation in autumn. The integrated carrying handles make CONE comfortable to transport.

CONE BOARD - to keep the cool drink always to hand and to place the grilled food directly next to the grid until it is put on. The board is docked onto the barbecue in one easy step and removed just as quickly. Bamboo is one of the most durable woods thanks to its exceptionally high surface hardness and also contains a natural antibacterial agent, making it the perfect material for a cutting board.

CONE CAST IRON GRID - more than just a cast iron grid. The drip tray, specially developed for the extremely solid grid, makes charcoal grilling healthier than ever before - it ensures that no fat or marinade can drip into the embers, but the food still takes on the woody smoky note of the charcoal.

The cast iron grid comes in two parts, each with a drip tray, and can be folded - as expected from CONE.

CONE MOUNTING - For those who are keen on an outdoor kitchen, the CONE mounting offers the ideal solution, as it can be embedded in a wooden, concrete or stone tabletop. The table is not included in the scope of delivery, but a mounting ring for mounting on the table is.

- ☆ charcoal grill with infinitely variable heat regulation
- can also be used as a fire basket
- solid grid: Ø 46 cm, Ø 5 mm bars, polished stainless steel
- incl. warming grid (Ø 50 cm segment)
- incl. lid thermometer and 2 hooks for hanging barbecue tools
- completely made of stainless steel
- optional accessories: CONE Board, CONE Cast Iron Grid

STEAK TOOLS - This is a tool that does justice to a perfect piece of meat. The sharp blade does not tear the meat fibres, but cuts them precisely, which keeps the meat juicy and aromatic. Solid, forged from one piece, the brushed, satin-matt stainless steel lies firmly and perfectly balanced in the hand. Stainless, dishwasher-safe and form-stable, the höfats steak tools are indestructible and guarantee years of enjoyment of good meat. High quality packaged in a wooden box, they are the perfect gift for any meat lover and anyone who appreciates good food. By the way, the höfats Steak Tools also perform with Pizza.

APRON - The sophisticated höfats apron turn you and your barbecue and cooking skills into a winning team. Its robust and easy-care material is tailor-made for you, because thanks to the continuous cord that runs from the neck over the sides to the hips, the apron can be adjusted to the body size with just one movement. This makes it fit perfectly right away and offers maximum wearing comfort. The simple integrated pocket and the towel strap are delightful. It comes already equipped with a high-quality linen towel.

GLOVES LEATHER - The robust höfats barbecue gloves made of pure, heavy suede and Kevlar are hand-sewn and made to last. They are extremely non-slip and heat-resistant and make barbecuing a safe pleasure, not least thanks to the extremely pleasant inner lining.

FIRE GLOVES ARAMID - as snug as a second skin and heat-resistant up to 500°C. Breathable aramid fibre is the special material of these fire gloves, which allow you to safely handle extremely hot objects. The silicone nubs on the entire palm ensure that you can grip even delicate objects reliably.

FLAME-GRILLED SALMON BOARD - The Finnish classic offers space for any fish and adds its unique flavour above the aromatic flames of the fire. The fish fillet is securely fixed under the stainless steel support on the solid beech wood board and can be attached to any höfats fire bowl or basket. To ensure that the fish is cooked evenly and gently, the flame-grilled salmon board fits into the mount from both sides and the different angles of inclination between the board and the flames guarantee optimum temperature handling.

PREMIUM FIREWOOD - Our premium firewood from German forest stands is high-quality hardwood from sustainable forestry. Thanks to technical drying, an almost weathering-free quality and a guaranteed water content of less than 20 percent is achieved. In this way, smoke-free fire pleasure is achieved with our fire baskets, and with a matching plancha, barbecuing over an open fire works perfectly.

JOHNNY CATCH - the probably best wall bottle opener in the world catches bottle caps magnetically or in a catch cup! 100% stainless steel. Johnny Catch does not need screws or dowels, it is mounted on the wall with a high-quality double-sided adhesive tape from 3M. The adhesive tape adheres to all surfaces, even very uneven ones.

Johnny Catch is a must: for the style-conscious beer drinker, lemonade lover, craft beer crack, in the pub around the corner, clubhouse, band room, club, music sports hall, construction trailer, bling bling club, in your favourite bar, kebab stand, gazebo, Stylo kitchen, chaos flat-share, party shed, ski hut, beach bar, workshop, on the roof terrace, next to your barbecue, fridge... Cheers!

- ☆
- very solid and perfectly balanced

CORTEN STEEL

LIVELY PATINA

Unlike conventional steel, Corten steel forms a stable layer of rust. While normal steel gradually dissolves through corrosion, Corten steel forms a barrier layer under the actual rust layer that protects the product from further corrosion. The top layer is constantly forming and renewing itself, thus ensuring a lively and unique patina.

This weatherproof steel is classified as an extremely eco-friendly material. It has an above-average lifespan, does not need to be painted and is fully recyclable. Corten steel is therefore increasingly used in the façade construction of modern architecture.

STAINLESS STEEL

LASTING QUALITY

It is four to five times more expensive than normal steel, but corrosion-resistant. It owes this special feature to a simple chemical reaction: The chromium content of the steel, in combination with the oxygen in the air or even in the water, forms an extremely thin passive layer on the surface. It repels all aggressive substances. And if it is ever damaged by external influences, it forms anew from the matrix of the steel in fractions of a second.

Stainless steel - an uncompromising material that matches höfats' quality standards. A widespread misconception is that high-quality stainless steel is not magnetic. A few years ago, this rule of thumb was still valid, but in the meantime ferritic, i.e. magnetic stainless steels of the highest quality are available with the same good corrosion resistance as their austenitic predecessors.

OUR PRODUCTS WITH YOUR LOGO

Our products make the sparks fly. They inspire with purist design, uncompromising workmanship and fascinating functionality. Objects that people talk about, don't forget and want to have - the ideal gifts for your valued employees or customers. Your individualisation is permanently applied by laser engraving or laser cutting.

An excerpt of magazines that reported on höfats:

CUSTOMER FEEDBACK

- Over 50% of all höfats products are given as gifts to friends & family.
 - 87% of our customers are interested in at least one other product from the höfats range.
 - 97% of our customers would recommend höfats to others without hesitation.
- [Customer survey July 2022, n = 3,027]
