by heston blumenthal

**Who better to re-imagine the barbeque,
than a chef who inspires millions.**

Heston Blumenthal is one of the world's top chefs. His Berkshire restaurant, The Fat Duck, has won international accolades and been awarded 3 Michelin stars, while Heston himself was given an O.B.E. by Her Majesty the Queen for services to British Gastronomy.

A fellow of both The Royal Society of Chemistry, and The Royal Academy of Culinary Arts, Heston's never been one to do things by the book. By pushing the traditional boundaries of the kitchen, and injecting a sense of child-like wonder and theatre into everything he touches, he's inspired a generation to seek pleasure, and entertainment, in food. Now, Heston's bringing his magic touch to the great outdoors, making it easy for anyone who enjoys barbequeing, to put on a commanding performance.

Heston

"Over 20 years I've learnt how to get the best out of ingredients. By incorporating some of my favourite techniques into these designs, I've created what some might call a 3 Michelin star barbeque range."

4K

Merging the rich history of charcoal cooking with precise technology and a modern design aesthetic, the 4K brings the authentic flavour of charcoal that humankind has enjoyed for millennia, to your home more efficiently than ever before.

Available in 6 colours:
Black, Orange, Graphite, Mint, Red and Stone.

“From baking, roasting, grilling, slow cooking to cooking over direct heat, there are so many intuitive perks in the 4K, that you’ll be finding new ways to cook for a very long time.”

4K

ELECTRIC IGNITION
